## EDUCATION

**University of Utah College of Engineering**

Bachelor of Science Computer Science (Honors College)

**Salt Lake City, UT**

Graduated: May 2018

## WORK EXPERIENCE

**7 YEARS OF INDUSTRY EXPERIENCE**

### Lucid Software

**Senior Software Engineer II (May 2018 – Present)**

- Optimized frontend and backend user management, enabled accounts to go from 50K up to 1M users.
- Created a new AWS EC2 service for data synchronization, modularized 8 integrations onto standalone Lambdas.
- Team lead for 3 different teams, managed over 15 direct reports, promoted 7 individuals.
- Led over 100 technical interviews, built out over 15 new technical questions for in-person interviews
- Built, launched and maintained SAML/SCIM integrations with Okta, Azure and OneLogin.
- Created a group admin role and reworked license management so it could be delegated to organizational groups.

### Epic Systems

**Software Development Intern (May 2017 – Aug 2017)**

- Used natural language processing to automatically identify eligibility requirements for clinical trials.
  - 80% accuracy on random selection of 100 clinical trials from <https://clinicaltrials.gov/>.

### Theradoc

**Data Integration Engineer (July 2016 – May 2017)**

- Built and maintained data pipelines and databases for hospitals monitoring infections.

## TECHNICAL PROJECTS

### Adventure to Infinity (<https://adventuretoinfinity.com/>)

- A browser based “choose your own adventure” game written and illustrated by generative AI.
- Nuxt, TailwindCSS, AWS Cognito, Lambda, DynamoDB, API Gateway, S3

### The Book of Infinite Rhythms (<https://www.the-book-of-infinite-rhythms.com/>)

- A rhythm generator for musicians to practice sight reading, or to seek inspiration.
- Nuxt, TailwindCSS, Auth0, Vercel, Neon

### Goats-R-Us (<https://goats-r-us.vercel.app/>)

- A flashy website about renting goats to clean up your unwanted vegetation, front-pages only.

### Soundshaper (<https://blackburn32.github.io/soundshaper/>)

- A polyrhythm visualizer built to explore shapes and sounds using Three.js.

### World Gourmet (<https://www.worldgourmet.us/>)

- A food blog created to explore documentation frameworks and the capabilities of generative AI.

### Simple Synth (<https://blackburn32.github.io/simple-synth/>)

- A minimal, musical synthesizer built to experiment with the built in audio capabilities of today’s browsers.

### Metronome (<https://blackburn32.github.io/metronome/>)

- A simple metronome application for practicing music and for testing the edges of Javascript’s native timers.
